Welcome to Light Nights Ltd.

We are an exterior lighting company which specialises in the design and installation of garden and building lighting, whether you have a small courtyard or a large garden, outdoor lights can be used to create a unique scheme which will come to life with beauty when darkness falls.

Garden Lighting. Garden Lighting adds an alternative creation to your landscape at night; we can transform your surroundings into an array of light by highlighting certain features which will enhance the landscape of your grounds and also provide safety and security to your premises.

- Lighting Trees
- Shrub Lighting
- Step Lighting
- Patio Lighting
- Pergola Lighting
- Pond Lighting
- Path Lighting
- Driveway Lighting

Building Lighting. Exterior lighting should be an essential of any commercial building. Light fixtures are often chosen for their appearance in the daytime, with little thought given to how they illuminate an area at night. The correct lighting fixtures for your building can transform the appearance while advertising your business and attracting passing customers.

- Flood Lighting
- Wall Wash Lighting
- LED Lighting

Design & Installation. We are able to offer a full range of lighting services from the initial design through to the full installation service, e.g. dining areas, features, walkways, building enhancement. Once we have established a picture of what the garden or building should look like we can offer a free quote. If you require a complete design quote there is a small charge added for this. Design will include photos of areas, what type of fixtures and lamp size, accessories, installation and material. All work carried out will be by a team of approved electricians.

Why not update your old lighting fixtures?

We can also replace existing lighting fixtures with our latest range of high quality lighting products. Please browse through our products on our website at www.lightnightsltd.co.uk for more information.

Thank you for your time, if you require any information, please contact us.

Regards
